See page 8 for details

Thank you to everyone who was able to attend the first ACING block party of 2019 located on Block 17. We had beautiful weather, great food, music, and lots of friendly faces! Special thanks to the hosts Sheila Hallett, Block 17 Connector, Nicole Howard, Block 11 Connector, Monika Ibrahimi, Block 17 resident, and Sharleen Martel, Block 17 resident. Their hard work paid off!

Anyone living within North Glenora is welcome to attend a block party - you don't need to live on a block with a scheduled party to participate. However, we strongly encourage you to attend a party if there is one planned for your block because these parties are designed to introduce neighbours to one another on the blocks where they reside. We believe when neighbours know each other, our wellbeing and quality of life is improved.

All ages and abilities welcome. Please contact the host Block Connectors for party specific information.

Proposed Rezoning

A planning application (map) has been received for a property at 10841 135 Street NW. The application proposes to rezone the property from Row Housing Zone (RF5) to a Site Specific Development Control Provision (DC2).

This DC2 zoning would allow for a four-storey apartment building with up to 28 units, and small scale commercial development at ground level. For more information:

[https://www.edmonton.ca/residential\\_neighbourhoods/neighbourhoods/north-glenora-planning-applications.aspx](https://www.edmonton.ca/residential_neighbourhoods/neighbourhoods/north-glenora-planning-applications.aspx)

The NGCL Planning and Transportation committee has prepared a quick survey regarding this rezoning application, we would be grateful if you could take the time to complete the survey.

The City of Edmonton and the developers, Verona Development, have confirmed a public open house on June 18 at the West Presbyterian Church. A postcard notification mail out will occur two weeks before the event. This will be an opportunity to learn more about this development and ensure your comments reach the appropriate contacts. We look forward to seeing you June 18.

This survey is also available via NGCL social media channels.

The print version can be deposited in the community league hall mail drop.

We are not collecting any personal information. This survey has been designed to provide the NGCL Planning and Transportation Committee with a general overview of the community's sentiment towards this rezoning application and redevelopment proposal.

Sincerely,

NGCL Planning and Transportation Committee.

Surveys will be collected until the end of June 2019.

## June Pub Night

**Reduce/Reuse/Recycle/Repurpose...**

**Fun/Friends/Food/Fantastic drink selection!**

June's North Glenora Pub Night will be  
**June 14** from **8-11pm**.

The usual pub night beverages will be available as well as non-alcohol drinks. Bring a snack to share, maybe served in a creative re-used container? As required by the liquor license — this event is open to all over 18 residents of North Glenora and invited guests.

## Backyard Play Safety

With summer approaching, Emergency Medical Services (EMS) would like to encourage parents and caregivers to ensure their backyard play areas are made safe for children. Although direct supervision is the best method to reduce the chance of injury, ensure your play equipment in your yard is in good repair and is suitable for the age and skill of the children using it. Check play equipment often; replace or repair any worn or broken parts. Set up play equipment over a layer of shock-absorbing material.

### Water hazards

- Drowning contributes to unintentional injury-related death among children ages one to four;
- Children can drown in just a few centimetres of water if it covers their mouth and nose;
- Ensure all backyard swimming pools are fenced. The fence must be at least 1.8 metres(\*) high and have a self-latching, self-closing, lockable gate.  
(\*Alberta Building Code)

### Lawn and garden tools

- Keep young children away from outdoor power equipment;
- Serious burns may result from touching hot engine surfaces;
- Ensure that all sharp tools, fuel, chemicals, and other hazardous substances are stored in a secure, locked area. A simple latch may not be sufficient.

### Insect bites and stings

- Minimize the risk of attracting insects by not wearing strong perfumes or scented lotions;
- Avoid wearing brightly coloured clothing outdoors;
- Consider destroying or relocating hives and nests situated near your home;
- To avoid injury through inadvertently stepping on a stinging insect, always wear footwear outdoors;
- If your child has received an 'EpiPen - Junior' prescription from your physician (for anaphylactic reactions only) ensure they understand when and how to use it;
- If your child experiences a severe reaction to an insect sting, or other environmental cause, seek medical attention, or call 9-1-1.

## National Paramedic Services Week

National Paramedic Services Week is May 26 – June 1, 2019

National Paramedic Services Week honours the paramedic profession and recognizes the men and women of Emergency Medical Services (EMS) providing this key public service. It is also an opportunity for the public to better understand the important role EMS has within both the health care system and our communities.

The year's national theme: "Celebrating Success".

Whether directly, or indirectly, every Albertan has felt the importance of the service paramedics provide. Paramedics are trained health care professionals who stabilize and treat patients before and during transport to hospital. In some areas of the province, paramedics are now working side-by-side their health care colleagues in hospitals and community care facilities.

- There are nearly 4,500 EMS practitioners and over 550 ambulances in the Alberta Health Services system, province-wide;
- Approximately 5,500 patients will be transferred by fixed wing aircraft through contracted air ambulance providers in Alberta this year;
- EMS dispatch receives over 500,000 ground ambulance calls each year.

EMS practitioners across the Alberta and Canada will be celebrating National Paramedic Services Week in a variety of ways. Watch for information in your local media as well as AHS EMS Twitter (@ahs\_ems) and Facebook (@albertahealthservicesEMS) about events happening in your community.

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than four million Albertans and it's more than 661,848 square kilometers. Its mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans.

## The Village GREEN – Controlling Apple Maggot

By Erin Olefeldt

Last summer I wrote about Apple Maggot. At the risk of becoming repetitive, I'm doing a little recap for the month of June because if we are going to tackle this annoying, apple destroying pest, the time is upon us. So let's roll up our sleeves, North Glenora and get to work!

If you've noticed brown trails inside your apples when you cut into them, or a brown pinprick in the skin of your apples, this is undoubtedly caused by Apple Maggot. Our neighbourhood is infected with it and it will take a coordinated effort to get rid of it.

Apple Maggot doesn't just affect apple trees unfortunately. It also attacks Hawthorn, Plum, Cherry, Pear, Crabapple, Wild Rose, and Apricot.

Here are some tips and natural methods to get rid of Apple Maggot:

- Buy sticky sphere traps. These traps can be purchased at many garden centres for this exact purpose. You will need 2 traps for every small or dwarf affected tree, or 4-8 traps for a large tree. Another way to think about it is to hang one trap for every 100 or so apples. Normally I'd recommend Apache on 149st, but they're running out quickly and the new shipment is currently on backorder.
- Traps can be easily made as well (time to enlist the help of the kids!). I'm not usually a big fan of Styrofoam, but desperate times call for desperate measures. Buy a bag of 3" Styrofoam balls from the dollar store, paint them red (using a waterproof paint), and then coat them in molasses. The size and the colour of the traps are important as that's what attracts the female adult fly.
- Check traps every few days and discard and replace once they're full. The adult flies begin laying eggs in July and carry on into August so this is your chance to catch them in the tree.

- If you can find kaolin clay, this is quite effective as well. Mix 3 c. of clay to 4 L of water and spray every 7-10 days starting in mid-June.
- Don't let the fallen fruit sit on the ground. Spread a tarp around the base of the tree to make collecting easier, and either throw this fruit into the garbage, or bury it at least 30 cm below the ground's surface.
- Talk to your neighbours and work together!
- Don't bring our fruit into B.C.

With a bit of effort and cooperation, we can eradicate Apple Maggot from our neighbourhood.

Welcome to

## Coronation School!

We are extremely excited to continue enhancing our focus on the International Baccalaureate (IB) Primary Years Programme (PYP) to emphasize inquiry and development of the whole person.

Through the support and talent of our students, staff and families, we work together to create a dynamic learning community. At Coronation, we're committed to ensuring all students have a sense of belonging and are engaged, active and involved in high quality learning opportunities.

### International Baccalaureate Primary Years Programme

As an IB World School, Coronation strives to challenge students with rigorous learning experiences. We establish this by:

- involving students actively in their own learning
- engaging students with rich, relevant content
- high level questioning (by adults and students)
- providing opportunities for students to express voice and choice
- emphasizing depth of learning, not just coverage
- focusing on the quality rather than quantity of student work

### Curriculum

The Primary Years Programme identifies the curriculum in three ways:

- written curriculum—what do we want to learn?
- taught curriculum—how best will we learn?
- assessed curriculum—how will we know what we have learned?

### Classroom Learning

In a PYP classroom, portions of each school day are also dedicated to helping students master essential knowledge and skills in basic subject areas such as math, reading and writing. All teaching aims to foster student curiosity and critical-thinking skills, developing an international perspective and meeting the diverse needs of all students.

### Assessment

In the PYP, assessment is part of a continuous cycle that leads students to deeper levels of understanding. Assessment is used to identify students' current level of understanding and determine what they need to learn and how they will best learn, so they can master new knowledge, concepts and skills.
